GAMIFICATION

Uncovering Hidden Pressure in K1–K12 Education

55M

K1–K12 students in the US face sustained academic pressure throughout their learning journey.

60%

Experience daily academic stress — a pervasive but often invisible challenge in classrooms.

40%

Report persistent sadness or disengagement; emotional resilience remains under-supported.

PRESSURE ALWAYS HAPPENS

**Now there is a way to give students a
mindful, confidence-building
learning journey from K1 to K12.**

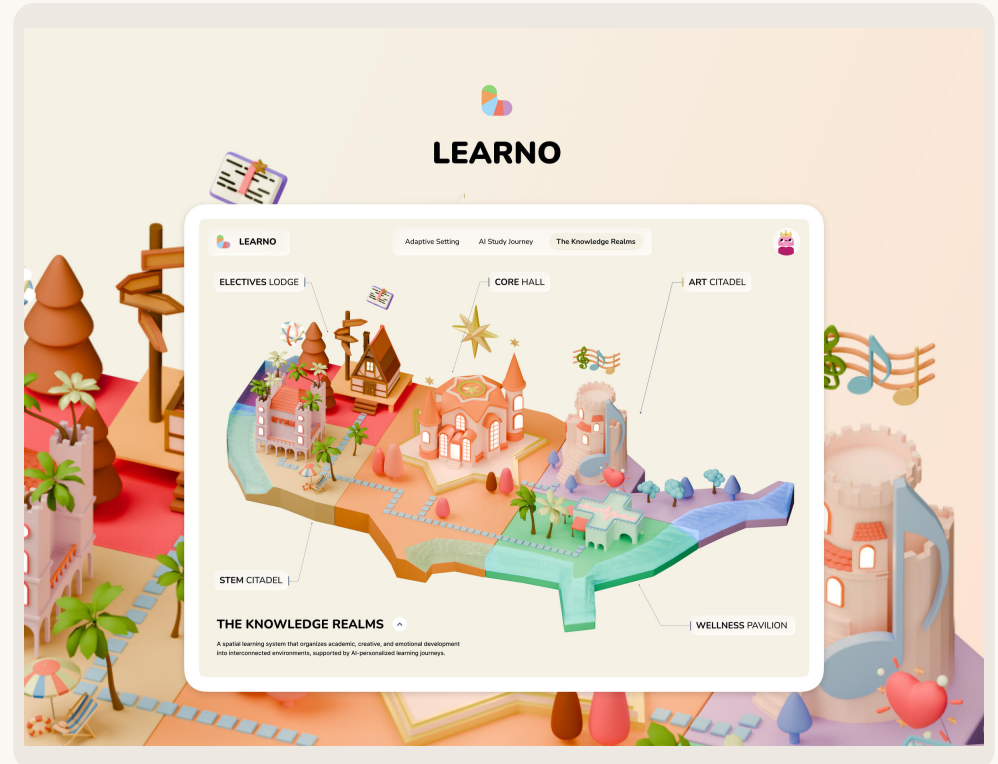

LEARNO UNIVERSE

The Learning Ecosystem

Each subject is a distinct realm. Progress at your own pace.

Individualized Learning Progress

Learno represents each subject as a distinct realm, progressing at its own pace based on individual learning patterns. This approach emphasizes personalized growth rather than uniform advancement.

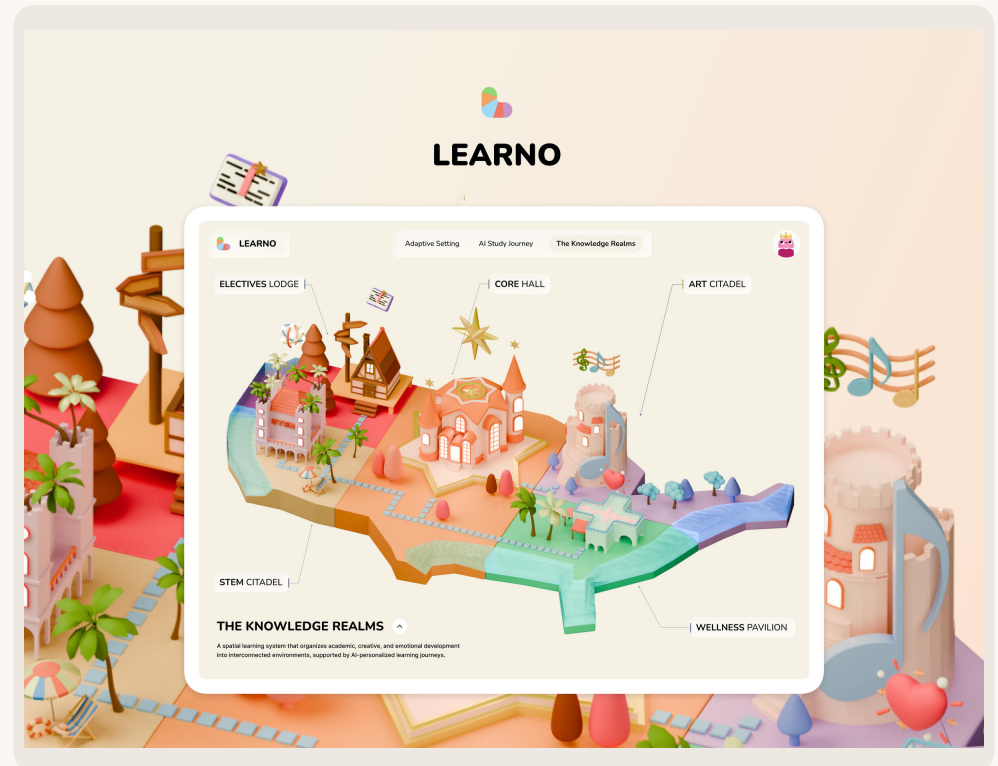

World Overview & Learning Snapshot

A world-level overview provides a consolidated snapshot of learning activity, progress distribution, and relative standing — encouraging reflection and long-term engagement without overemphasizing competition.

Subject-Based Realm Organization

Learno organizes learning into subject-based realms, each encompassing its related disciplines and content areas. This maintains clarity across subjects while supporting seamless navigation within the ecosystem.

FEATURE 01

Personalized Avatars & Learning Communities

Emotional connection, individuality, and shared belonging.

Expressive Character System

Learno introduces an expressive character system with varied appearances, outfits, and scales. These visual variations help learners form emotional connections while reinforcing individuality and engagement.

Personalized Avatar Customization

Learno allows learners to customize their own characters through personalization settings. By enabling choice in appearance and expression, the system fosters a sense of ownership and identity from the start.

Learning Community in a Shared 3D World

Learno extends learning into a shared 3D world where individual learners coexist within a broader community — reinforcing belonging and shared progress while maintaining each learner's personalized journey.

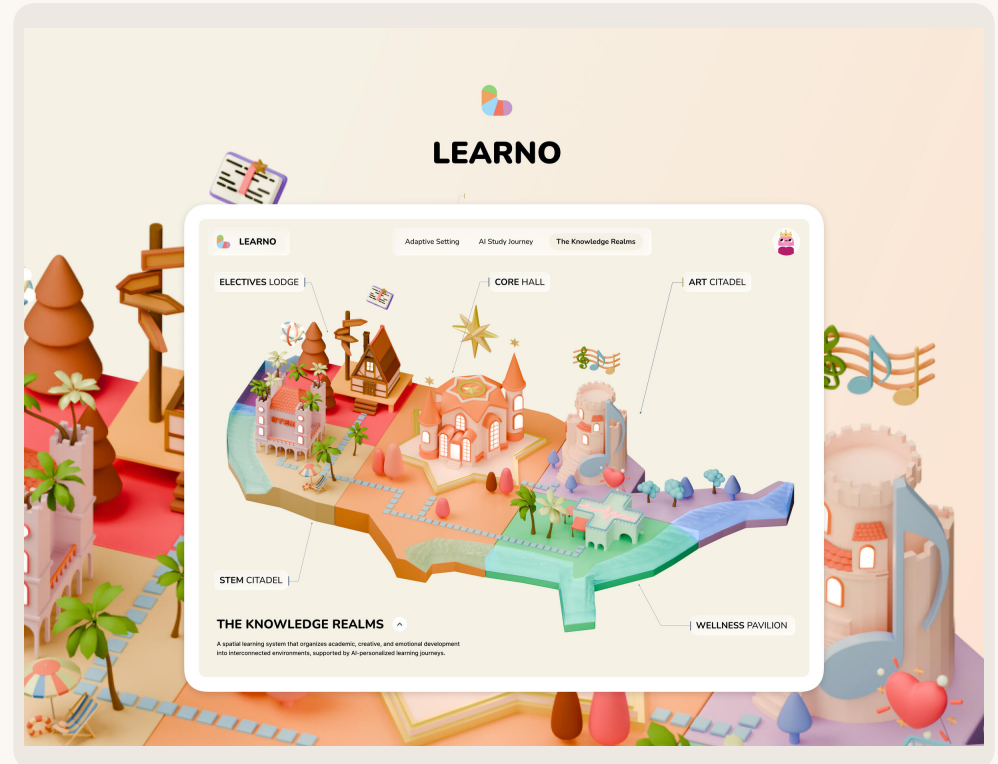

FEATURE 02

Emotionally & Personality-Aligned AI

Tutors that adapt to students' emotional states and learning rhythms.

AI Tutors That Adapt to You

Learno offers emotionally and personality-aligned AI tutors, each designed with distinct interaction styles, tones, and behavioral archetypes. These tutors adapt to students' learning rhythms and emotional states, providing guidance that is supportive, relatable, and human-centered.

AI-Tailored Holistic Study Journey

Learno organizes learning content into an AI-tailored, holistic study journey that clearly structures subjects, lessons, and progression. This approach helps learners understand their path toward mastery while reducing cognitive overload and supporting sustained engagement.

The gamified knowledge realms ecosystem designed for K1–K12
